

OUR ENERGY  
KEEPS YOU RUNNING

# OUR ENERGY KEEPS YOU RUNNING

## **Proud member of the Pon family**

Topec is a subsidiary of Pon, one of the Netherlands' largest privately held companies in the field of international trade and service. Pon employs over 13,000 people in 450 locations across 32 countries.

*Topec has over 40 years of experience in developing and building products to meet your energy needs. We are an independent supplier of a wide range of traditional and hybrid/renewable solutions with a strong focus on value and reliability.*

## **SINCERE & INVOLVED**

We put stock in a personal approach that unburdens the customer. And we are proud of our people; professionals with expert knowledge and problem-solving skills, who understand the challenges and risks that your company needs to address. Thanks to our short lines of communication, we can complete any project expeditiously and exactly to your requirements.

## **EXCELLENT**

From our headquarters in Papendrecht, we select the right people and products and forge the right partnerships to provide an excellent level of service. Our goal is to find a matching solution to the most complex challenges.

## **FUTURE-PROOF**

You need a solution that works now, as well as long-term. We understand this and fully consider the impact of technological advances, organizational changes and external developments. We are aware of the social significance of efficient and cleaner energy generation. We stay abreast of innovations, legislation and new technologies. And this encompassing awareness enables us to design and build ingeniously customized wind and solar energy solutions.

# A FITTING SOLUTION

---

There is no such thing as a generic (emergency) power solution, so Topec aims to design solutions with the specific customer in mind, using their input and our own international experience to devise solutions that achieve the customer's overall organizational ambitions. From concept to engineering and from installation to project management: Topec delivers energetic solutions.

Our solutions include:

- Motor-generator sets
- Containers
- Operating systems
- Power packs
- High voltage distributors
- Low voltage distributors
- Combined heat and power
- Transformers
- kWh contracts
- PV systems
- Battery storage

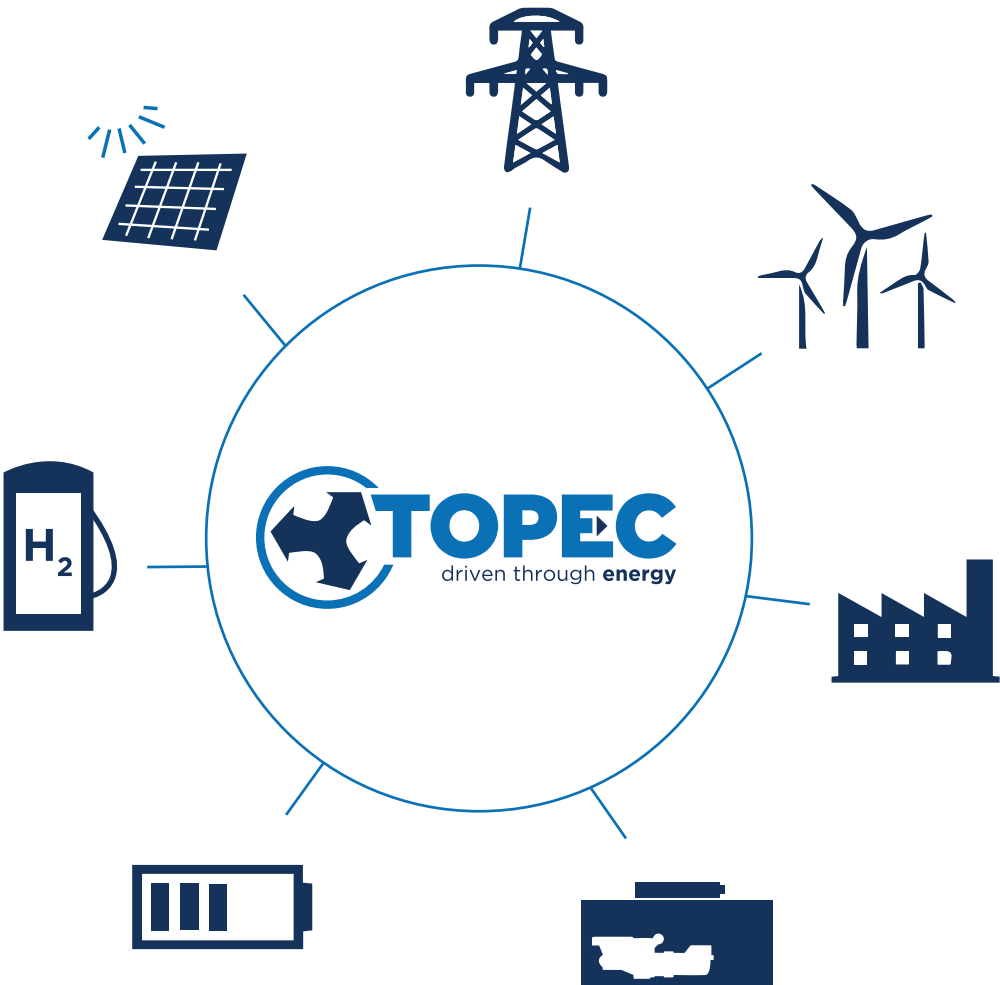

## - NEW -

### KWH CONTRACTS

We can install a generator set on location to meet your company's energy requirements. A Power Purchase Agreement sets the price you pay per kWh, and that's all you pay: the kWh price. The hardware, service and maintenance are all included in that price.

---

TAILORED TO YOUR NEEDS

# THE INDUSTRIES THAT BUILD ON US

---

We understand the need for operational security, reliability and safety.

A power outage can result in substantial material and non-material damage.

Topec customers can count on products that meet our own stringent quality standards and pass any required product certification, such as DNV GL.

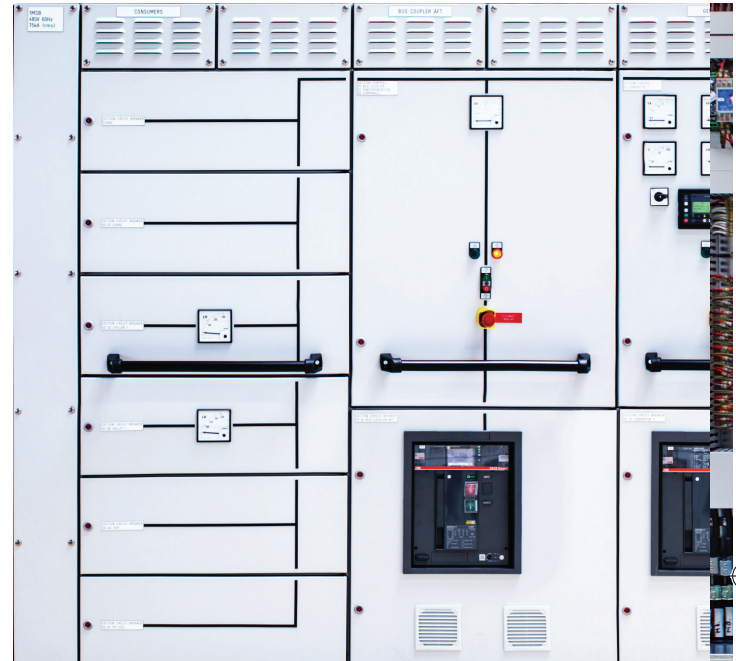

## AND ON OUR ENERGY

- OFFSHORE OIL AND GAS
- ONSHORE OIL AND GAS
- FOOD & BEVERAGE
- MARITIME
- CHP / BIOMASS
- DATA CENTERS AND HOSPITALS

# ALL SERVICES ...

## 1 **ENGINEERING**

Our engineers translate your requirements for (emergency) power into a custom design. Which we then build, selecting the right components piece by piece, from the operating system, transformers, distributors, ventilation and cooling, to fuel and flue gas systems.

## 2 INTEGRATED CONSTRUCTION

The generator sets, including control and operating panels, are assembled on a sturdy frame within in a soundproofed case or container. We can also integrate these units into existing systems.

## 3 TESTING

We thoroughly test every installation prior to deployment. This way you can rest assured that your installation is fully operational, and we know that our solution meets your requirements.

... UNDER  
ONE ROOF

#### 4 **INSTALLATION & COMMISSIONING**

Our service doesn't stop upon delivery and installation. We also commission our equipment. This involves testing for security, capacity, and proper functioning of the complete installation.

## 5 SERVICE & MAINTENANCE

Topec is renowned for providing outstanding service, including technical support, revision and maintenance, and on premises interventions. We are at your service to support our complete solutions long-term, and to keep everything in perfect working order.

24/7 Worldwide
